06 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	Avoid direct contact and inhalation of aerosols or dry reagent dust. Wear laboratory coat, gloves and eye protection; ventilate the area.
Environmental precautions	Avoid discharge to drains and waterways.
Methods and materials for containment and cleaning up	Absorb liquid spills with inert material; collect solids without generating dust. Place waste in a labeled sealed container.
Reference to other sections	Refer to Sections 8 and 13.

07 HANDLING AND STORAGE

Precautions for safe handling	Work under a hood. Do not inhale mixture; avoid generation of vapours or aerosols. Change contaminated clothing; wash hands and face after handling.
Conditions for safe storage	Store tightly closed at -20 °C. Protect from light and repeated freeze-thaw cycles.

08 EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

No kit-specific occupational exposure limits have been established; consult individual reagent SDSs where available.

8.2 Exposure controls

Engineering measures	Provide adequate laboratory ventilation and access to an eyewash station.
Hygiene measures	Do not eat, drink or smoke during handling. Wash hands after use.
Eye / face protection	Wear protective eyewear meeting applicable laboratory standards.
Hand protection	Wear appropriate chemical-resistant gloves, selected for the reagent solvent and exposure time.
Skin and body protection	Wear a laboratory coat and closed shoes.
Respiratory protection	Normally not required for small-scale use with adequate ventilation; assess protection if aerosols or dust are generated.
